# FUTURE-READY ORGANIZATIONS?!

Our world today is in the midst of a profound transformation marked by volatility, uncertainty, complexity, and ambiguity (VUCA). We are confronted with super-wicked problems like increasing climate change, structural inequality, technological disruption, political instability and severe conflicts all around the world. These challenges demand entirely new ways of thinking and collective action to address them effectively

## HOW CAN WE AS NEXT:LEADERS SHAPE ORGANIZATIONS THAT ARE READY TO FACE THIS WORLD'S CHALLENGES?

Complexity and growing uncertainty affect us all — every company, every team, every leader.

The challenge is immense: Currently, we are learning the hard way that the deeply ingrained rational, analytic, and reductionist ways of thinking fall short when addressing a VUCA environment. To thrive in this evolving reality, we require a fresh framework for business and leadership. It calls for new perspectives, practices, and tools to create adaptable formats and organizational structures capable of navigating the VUCA landscape.

**IT'S TIME TO DO THINGS DIFFERENTLY:  
DEEPLY HUMAN. PURPOSE-DRIVEN. ADAPTIVE.  
WELCOME TO NEXT:LAND!**

# A NEW CONTINENT TO EXPLORE: NEXT:LAND

# ABOUT THE LEARNING LAB

**The next:pedition is an Action Learning Lab: Five modules designed to help you embrace uncertainty and unlock your leadership potential, as well as the potential of your organization. Here, you will learn how to co-create organizations that are future-ready, meaningful, and deeply human.**

We invite 12–16 leaders and changemakers to embark on an exploration of “next:land,” a metaphorical new continent representing future-ready organizations. Together, we will journey into uncharted territories, experiment with innovative approaches to systemic transformation and leadership, delve into both personal and organizational dimensions. At the core of this endeavor lies the profound truth that every transformative journey begins within oneself.

**“Act yourself into a new way of thinking rather than thinking yourself into a new way of acting!”**
